

SUMMER HOLIDAY PERIOD APPROACHING

Order spare parts in due time

Just a friendly reminder that time flies, and it is soon summer

We are approaching the summer holiday period in Europe and Sweden, which always causes longer lead time of spares from order to delivery. From mid-June until beginning of August our staff is reduced.

As you all know, the whole world is now facing a situation where lead times of many spare parts are longer than normal. In some cases extremely long. This year, ***it is more important than ever to order your spare parts in due time.*** Look over your needs and plan your maintenance and service **today**. We are always here to help and give advice, only an e-mail or a phone call away!

Stay safe and keep in good health!
